

Together we achieve more

Course List & Pricing

At Raeburn Training we work in partnership with candidates, businesses and organisations Scotland and beyond, to deliver courses on a range of topics. We deliver courses across a range of industries, as well as specialising in the construction industry.

A wide range of courses and services are available, including Health and Safety, first aid, plant operations, access equipment, CSCS training/ testing and CPCS testing.

We also support clients with a range of services such as training plan management, support to attain funding (up to £15,000), Health and Safety support and site inspections.

All prices are exclusive of VAT and are valid as of 1st July 2022, subject to change. Training packages are available on request, and if there is a course you need that isn't listed, please get in touch and we will provide a solution.

CSCS / CPCS Training and Testing

Raeburn Training provide a variety of training and testing surrounding the CSCS card scheme. The entry level green labourers card is the most common course, requiring training (both the REHIS and H&S Awareness courses below qualify) and testing. We also support candidates attain the other 12 card types, arranging bookings of VQs where appropriate. All Health, Safety and Environmental tests are available, including operative, specialist and managers / professionals, at our internet test centre in Kirkcaldy, Fife.

Our Services

As well as offering a wide range of training courses, we also offer three invaluable services to organisations covering H&S support, training plan management and CITB Skills & Training Funding Support.

We offer free consultations for organisations to explore these services to allow them to make an informed decision on their needs and our pricing structure is simple and cost effective.

Health and Safety Support

Navigating the field of Health and Safety can feel daunting, and although a wealth of information is available from the Health and Safety Executive, it is time consuming to review and interpret what is applicable to your own business.

We have the H&S expertise to help you put in place policies, processes and training to make your workplace a safer place to be and to protect the health of your employees.

Initial audits are available **free of charge** which will provide you with a GAP analysis in key areas, and allow you to identify where improvements are required.

Training Plan Management

We can save you time and resources through providing a comprehensive training plan management service, giving you piece of mind that your records are accurate and that training needs are met in line with your business requirements.

Following the free consultation we apply a small registration fee for set up followed by a monthly fee thereafter based on the number of individuals on the training plan as follows:

- 0-20 £15pm
- 21-40: £35pm
- 41-60: £55pm
- 60-100: £95pm

CITB Skills and Training Fund Support

If you are a CITB registered company with 250 or less employees, a potential route of funding to support your investment in training is the CITB annual Skills and Training Fund which can see you secure between £5,000 to £25,000 depending on your headcount.

Securing such funding is an intensive, time consuming piece of work for organisations. By utilising our expertise we take on that time and effort, with minimal input from the client to ensure we are meeting requirements.

We apply a 10% consultancy charge based on the funding awarded to the client.
